WABI SABI

Our Wabi-sabi guitars are constructed with B or C grade tops....usually rejected for being aesthetically imperfect but sounding the same as A grade tops. This is a brilliant combination as each guitar is different and we are able to offer a solid top guitar at a laminate guitar price.

HENNA CEDAR

VICKI GENFAN Every now and then, an artist comes along whose music reaches out and touches the soul of all who hear it. Virtuoso guitarist, singer and composer Vicki Genfan is among those artists. Using 31 alternate tunings and the percussive technique she calls 'slap-tap', Vicki has been recognized among the world's greatest guitarists. Vicki Genfan started out playing the Muse 12-string and Luna Artist Trinity, but had longed for a Henna guitar of her dreams – with all the bells and whistles that her particular type of playing requires. To that end, Luna worked with master luthier Gray Burchette to build the ultimate Luna Guitar. Based on Vicki's dream Luna, we are proud to offer the Vicki Genfan Signature Acoustic. Featuring a solid spruce top laser etched with the same "OM" design that graces her own guitar, and rosewood sides and back, this guitar delivers acoustically.

HEARTSONG SERIES

The HeartSong Series is another

Luna innovation, sparked by asking players what would facilitate their creative process. What Luna heard is that flashes of creativity do not always happen at opportune times – and inspiration is sometimes lost. Luna is using Fishman's "plug-and-play" system with a USB output and built-in tuner that allows a player to capture their creativity with maximum convenience.

AURORA BOREALIS SERIES

Acoustic integrity and perfect sizing assure that young players will have a positive learning experience on a well-crafted instrument that they won't outgrow. The rosewood neck is adorned with Luna's signature moon phase fret markers, and the sound hole is embraced by a crescent moon rosette – giving the Aurora Borealis the same look and feel that grace Luna's full size models.

TRIBAL SERIES

Luna's mahogany ukuleles combine the best of traditional profiles and wood selection with Hawaiian body ornamentation, entwined guardian spirits, and contemporary longings. These Tribal ukes take their design from traditional Pacific carvings. Designs that are monochromatic, tattooed in black against brown skin, with strongly geometric patterns, and many shapes and symbols inspired by Tribal warriors. A great uke from beginners to pro's alike!
